New York State Regents Exams: New York State Library

OK so to find the length of the side SR(i think) you set it equal to the other side right? I solved and found that the side = 51 i believe Then to find the diagonal i tried to find it with Pythagorean theorem but that came to a number with a decimal and in the directions there was absolutely nothing about rounding so i decided to solve it by using the diagonals to find z and then plugging it ...
