Apple's brand new iPad has just launched with a Retina display! The resolution is 2048 x 1536, quadrupling that of the first and second generation iPads. You might not think that's quite enough to merit Apple's designation of a Retina display — one dense enough to make individual pixels indistinguishable — however Phil Schiller explained that the iPad is expected to be held at a distance of 15 inches away from the user's eyes, qualifying it for that title.
