In his book *Kicking Away the Ladder* (which won the European Association for Evolutionary Political Economy's 2003 Gunnar Myrdal Prize), Chang argued that all major developed countries used interventionist economic policies in order to get rich and then tried to forbid other countries from doing the same.

Ha-Joon Chang - Wikipedia

This article introduces a new dimension in the debate on infant industry promotion by pointing out that, historically, the developed countries themselves did not develop on the basis of free trade policy and laissez-faire industrial policy that they currently recommend to, or even force upon, the developing countries. It first critically examines the "official history of capitalism", which ...

Book Review: Ha-Joon Chang - Kicking Away the Ladder

So 'Kicking Away The ladder' is a very persuasively written book packed with useful insights. The historical data he employs reminds us that economic development has never relied on free markets or laissez-faire policies at least in the early years. Chang's policy suggestions are both wise and workable.
