First, I have a 4 year old 55 inch Samsung LCD Tv with fluorescent back lighting. It started ~9 months ago having a white/milky translucent film showing up around the edges of the screen and has gotten worse. I have an extended service plan for 5 years and per the Tech the entire screen replacement is required. Great thing you have the plan because this is expensive per the Tech.

Question on LCD Flat panel TVs? | Yahoo Answers

Best Answer: From what I've been told Plasma is the loser in the market. Prices are dropping on them because they tend to burn out quicker and have been having problems with short life span. They also are louder, as they emit a kind of hum or buzz. I hear LCD is the way to go for a longer lasting and ...

LCD TV or Plasma TV ? | Yahoo Answers

Lcd Tv Answers Best Answer: The black bars on the screen can be easily fixed by setting the options on the tv. Some just display the broadcast picture, but you can also set it so that it always displays widescreen and stretches to fit the whole screen filling the gaps. If you have a 1080p LCD

Insignia LCD TV Troubleshooting Questions Answered

Today I purchased a Dynex LCD TV, and everything is fine except when I try to play video games. Again, regular television viewing has no problems, it's my xbox. Whenever I try to play xbox games, the color blue never shows, in fact, everywhere blue is supposed to be is green. So what I want to know is, what the problem is with my tv, and if there is a way to fix it.

Problem with my LCD TV? | Yahoo Answers

Of course you can connect your laptop to the LCD TV, just plug the cable which comes with laptop to view media on T.V. There is a socket where you plug the cable on the laptop should have the T.V sign on it. ... I think that this answer violates the Community Guidelines. Chat or rant, adult content, spam, insulting other members, show more.

connecting to LCD TV? | Yahoo Answers

Best Answer: LED TV is basically just upgraded LCD TV. In LCD TV, at the back there are fluorescent lamps, but in LED TV there LEDs instead. Because of that LED TVs are lighter and thinner. They also produce better colors and deeper blacks. What I noticed is that LED TVs have better viewing angle than LCD ...

LCD vs LED TV.....? | Yahoo Answers

none of the above for the love of god!!! please do yourself a favour if your gonna buy a 1080p tv dont buy garbage, you can get an amazing tv for a few bucks more please dont buy those!!! LCD: lcd is good if the room your going to put it in, is bright or well lit, if you watch alot of shows that involve brighter pictures the tv is for you.
