John Allen Paulos is a professor of mathematics at Temple University. His books include the bestseller Innumeracy: Mathematical Illiteracy and Its Consequences (H&W, 1988), Irreligion: A Mathematician Explains Why the Arguments for God Just Don't Add Up, A Mathematician Plays the Stock Market, and A Mathematician Reads the Newspapers.

Irreligion: A Mathematician Explains Why the Arguments for God Just Don't Add Up | IndieBound.org

Paulos comes at many of them from a mathematician's perspective, but there's relatively little maths involved: a few useful reminders about things like probability and complexity (which humans' 'gut feelings' tend to get terribly wrong) and the like, but barely an equation or mathematical symbol in sight.

Irreligion. Irreligion (adjective form: non-religious or irreligious) is the absence, indifference, rejection of, or hostility towards religion. Irreligion may include some forms of theism, depending on the religious context it is defined against; for example, in 18th-century Europe, the epitome of irreligion was deism,...

Irreligion - Wikipedia

Few of the recent books on atheism have been worth reading just for wit and style, but this is one of them: Paulos is truly funny. De spite the title, the Temple University math professor doesn
