Today's leaders and their organizations face a huge challenge: They need to transform their capacity for effective action in a business environment buffeted by accelerating change and mounting complexity.

### **Leadership Agility**

Leadership agility is not a single competency. It's the master skill-set needed for sustained success in today's increasingly complex, fast-paced changing business environment. Leaders grow through a series of predictable, learnable "agility levels" that correspond to well-documented stages of personal development. As leaders develop through these agility levels, they become more visionary, collaborative, and creative — and more proactive in learning from their experience.
