The Island is home to a mysterious entity, consisting of a black mass accompanied by mechanical-like sounds and electrical activity within, dubbed the "Smoke Monster" or just the "Monster" by the survivors. The monster has been described by Lost producer Damon Lindelof as "one of the biggest secrets" of the mythology.

Mythology of Lost - Wikipedia

The island is a really elaborate amusement park. She actually has some pretty compelling theories to support this claim. Walt was too short to ride the rides, that's why they had to take him. It wasn't safe for Claire because she is pregnant. Ethan is just an employee (like all the "others" are) and was trying to remove her from the park.

My girlfriend's theory on the island : lost - reddit.com

The Island is the geographic location of the Lost castaways, covering a period of at least 2000 years. From a literary perspective, the writers of Lost project the Island as both a location and an entity, with its own characteristics and influence.. The Island has healing powers and cured John Locke of his paralysis and Rose Nadler of her cancer. It also functions as a "cork" that suppresses a ...
