Rheumatoid arthritis (RA) is an autoimmune disease in which the body's immune system

mistakenly attacks the joints. This creates inflammation that causes the tissue that lines the inside of joints (the synovium) to thicken, resulting in swelling and pain in and around the joints.

Arthritis — The Great Plains Laboratory, Inc.

Once you receive or access your report from the laboratory, it may not be easy for you to read or understand, leaving you with more questions than answers. This article points out some of the different sections that may be found on a typical lab report and explains some of the information that may be found in those sections. Sample lab report
