Market Pricing. Evepraisal looks at a recent (around 5 minute delayed) market orders to estimate prices for items. For sell orders the minimum value is used because that is the lowest price that you can get if you purchase items from a sell order. For buy orders the maximum value is used because that is the highest price that you can get when selling items to a buy order.

Coolant is produced by combining water (refined from aqueous liquids) and electrolytes (refined from ionic solutions). The actual numbers are 6k P0 materials to 40 P1 materials (times 2) to produce 5 P2, my numbers are multiplied by 4 so it is a nice round figure for P3 or P4 production. The first thing we have to do is locate a suitable planet.
