Life is anything but real in this entertaining fusion of SF and fantasy spiced with sex, rockin' elves and drunk faeries, the first of a new series, from British author Robson

Fiction Book Review: Keeping It Real: Quantum Gravity ...

Just wanted to let you know that I contacted Pyr, about the e-book for Keeping it Real not being available in the US (even though all the other books have a e-book version) they said that the Keeping it Real e-book edition is out of print. Not sure how that makes sense, but I would like to read your Quantum Gravity books but only use my e-reader.

Quantum Gravity 1: Keeping It Real - Justina Robson

In the world of "Keeping It Real," a high-energy physics experiment went wrong (they call it the "Quantum Bomb") and shattered reality some time ago, separating the world into six realms, causing magic to work, and maybe even rewriting all of history. Bingo, a plausible excuse for introducing elves, demons, elementals, and fairies. To
