To all appearances, Eleanor Longden was just like every other student, heading to college full of promise and without a care in the world. That was until the voices in her head started talking. Initially innocuous, these internal narrators became increasingly antagonistic and dictatorial, turning her life into a living nightmare. Diagnosed with schizophrenia, hospitalized, drugged, Longden was ...

I was labelled with schizophrenia. I blamed the voices for my plight, voices discussing me and, worse, voices commanding me to do idiot things. To secure my release from the terrible locked hospital ward that held me for so many months, I had to move from blaming voices to accepting them, and then from acceptance to concealment.
