Quiz & Worksheet - Interaction of Light & Matter | Study.com

Apart from the electromagnetic waves, there are also matter waves, like water waves and sound waves. These travel at a much lower speed. Whereas light can travel in a vacuum, i.e. a place with no particles (like empty space), matter waves need a medium, i.e. particles, to travel in. That's how light can travel in space, but sound cannot.

Light Waves Worksheet - EdPlace

Light travels at an incredible fast speed and it allows us to see everything around us. It travels as a wave which interacts with different types of matter in a different way. This lesson is designed for 7 th grade students to investigate the different ways in which light waves interact with matter. The type of matter depends on which state the ...
