Learning SQL, 2nd edition - R-5

Learning SQL is a fine introduction to SQL, with concise & practical practice exercises following each chapter. My only gripe is that even a beginner book should have at least one chapter on query optimization and performance tuning; it's a little too easy for beginners to knock over an entire database with one bad query.

Learning SQL by Alan Beaulieu - Goodreads

Don't just skim SQL's surface: Gain a real understanding of what it can do -- in less than 300 pages. Alan Beaulieu's Learning SQL starts with all the background you need: No SQL or database experience is required. In the first few chapters, you'll walk through creating and populating your first database.
