Screen Resolution changes by itself. Upon startup, my screen resolution suddenly changes from 1280x800 to 1024x768. When I try to change it back to my original resolution, the 1280x800 resolution is not available. I have tried the following to fix this: 1. Updated the graphics driver 2. tried system restore (in case some files were corrupted or whatsoever). 3. I also tried this.
