Problem Description. This is a program that can help solve many logic problems commonly found in puzzle magazines and books. Here is a simple example: Mary, John and Pete have red, brown, and blonde hair, and are 13, 14, and 15 years old . Using the following clues determine the hair color, and age of each child. 1. The youngest has blonde hair. 2.

Logic Problem Solver - DelphiForFun

Continue doing this for every clue you're given. Eventually you will have filled in enough X's and O's on the board that you will then be able to use simple logic to deduce the solution to the puzzle. For example, if A = B, and B = C, then A must equal C. Similarly, if A = B, and B =/= D, then A must not equal D.
